

Privacy Notice for Our Workforce

As a Trust, your personal information is something we take very seriously. We have entered the 'digital era' where we have seen the launch of Google, Facebook, Twitter and many other applications which have changed and will continue to change the world of personal data.

We want to ensure that you are familiar with the changing legislation, aware how we are seeking to comply with it and, most importantly that you understand the imminent changes.

Data Protection and the General Data Protection Regulation (GDPR) - outlines responsibilities for Data Controllers and Data Processors.

Who are these people in our School/Trust?

The Headteacher in each school is **Data Controller** of the personal information you provide to us. This means they determine the purposes for which, and the manner in which, any personal data relating to staff is to be processed.

For Trust employees – the **Data Controller** is Rachel Hannon, Trust HR Director.

Where necessary, third parties may be responsible for processing staff members' personal information. Where this is required, the school places data protection requirements on third party processors to ensure data is processed in line with staff members' privacy rights.

As an academy within the Transform Multi-Academy Trust (MAT), the Trust is the overall **Data Controller** of the personal data you provide to us. This means that they decide the purpose for which and the manner in which any personal data relating to pupils and their families is to be processed.

Jill Wilkinson is the Transform Trust Data Protection Officer. Her role is to oversee and monitor the school's Data Protection procedures and to ensure they are compliant with GDPR.

Jill can be contacted by telephone (0115 9829050) or e-mail

Data Processors are people or organisations that process the personal data on behalf of the controller. Examples in our Trust/school include our Management Information System provider, SAAF for our payroll, individual school photographers and cashless catering providers.

Within the Trust/school, there are very few occasions where we would need to approach you for your consent to process (share) your data outside recruitment and employment processes. We use data for payroll including performance management processes, pensions, contributions to unions, contacting you in the event of an emergency and our workforce returns.

The Trust and all schools within the Trust are required to share employee details with SAAF who are our payroll provider to ensure that employees are paid on time.

If an employee is a Staff Governor, information is also shared with the Department for Education to comply with the Academies Financial Handbook.

We are required to share information about our pupils with the DfE under section 5 of the Education (Supply of Information about the School Workforce) (England) Regulations 2007 and amendments. It is important to stress at this point that the Department for Education has robust processes in place to ensure confidentiality of any data is maintained. Similarly, we share information with the Local Authority and Teachers Pension for pension details and the School Health Team (part of the National Health Service) for example, referrals to Occupational Health.

During a school inspection, Ofsted inspectors will view the single central record for safeguarding compliance, in accordance with the School Inspection Framework. The Trust also conducts safeguarding reviews and will also view the school's single central record to ensure that the school is compliant.

We will not share your personal information with any third parties without your consent, unless the law requires us to do so. The Trust/school routinely shares employees' information with:
